Actionable Defensive Recommendations

- Never disclose OTP, UPI PIN, or banking passwords.
- End suspicious calls and independently verify via official numbers.
- Report cybercrime incidents immediately to National Helpline 1930.

IMPORTANT NOTICE: KAVACH AI is an AI-assisted decision-support system, not a guaranteed fraud detector. Threat scores and tactic classifications are algorithmic recommendations based on acoustic speech transcription and social-engineering heuristics. This report is intended for security operations centre analysts and authorized investigators. In case of emergency or financial theft, report immediately to Indian Cybercrime Reporting Portal (https://cybercrime.gov.in) or call the Cyber Helpline at 1930.
