## Audio & Conversation Transcript

*"I am Inspector Sharma from CBI. You are under digital arrest warrant."*

## Detected Social Engineering Tactics & Evidence

| Threat Category | Matched Evidence | Points | Tactic Explanation |
|---|---|---|---|
| Authority Impersonation | `cbi` | **+20.0** | Caller claims to represent law enforcement, intelligence, or judicial bodies (CBI, Police, Cyber Cell, ED, Customs, Court). |
| Digital Arrest Patterns | `under digital arrest` | **+25.0** | Caller imposes continuous video interrogation, claims victim is under 'Digital Arrest', and threatens physical apprehension if video call drops. |

## Actionable Defensive Recommendations

- Never disclose OTP, UPI PIN, or banking passwords.
- End suspicious calls and independently verify via official numbers.
- Report cybercrime incidents immediately to National Helpline 1930.

## Analyst Investigation Notes

**IMPORTANT NOTICE:** KAVACH AI is an AI-assisted decision-support system, not a guaranteed fraud detector. Threat scores and tactic classifications are algorithmic recommendations based on acoustic speech transcription and social-engineering heuristics. This report is intended for security operations centre analysts and authorized investigators. In case of emergency or financial theft, report immediately to Indian Cybercrime Reporting Portal (https://cybercrime.gov.in) or call the Cyber Helpline at 1930.
